

Jeanne Freeman
Future Resident of The Amsterdam

I have an overwhelming need for independence. I don't see that changing any time soon.

That's why I decided on a lifestyle where I can continue to work at the St. Stephens Episcopal Church's consignment shop, volunteer as a museum docent in Sands Point Preserve and watch the ospreys return every March. And that's also why I decided on a cozy, yet comfortable one-bedroom apartment home complete with convenient access to the indoor swimming pool, fitness center, gourmet dining venues, and much more!

At The Amsterdam, I'm going to live life on my terms in the beautiful surroundings of a world-class community. I want to continue doing the things I enjoy without the worry of who's going to take care of me — and with **life care**, I can. Because **life care** gives me guaranteed access to a full continuum of long-term health services, my future is secure.

Call (800) 365-0665 today to find out about **life care** living at The Amsterdam at Harborside.
