

Edwin & Florence Hess
Future Residents of The Amsterdam

We like to keep busy. But not with worrying.

That's why we decided on a lifestyle where we can continue participating in parish activities at St. Mary's in Roslyn Harbor and volunteering at St. Francis Hospital, plus going to the theatre and on cruises, as well as enjoying the many activities The Amsterdam will be offering. That's also why we decided on a beautiful and airy two-bedroom apartment home, complete with first-class finishes like granite countertops and spacious walk-in closets, not to mention the spectacular views!

At The Amsterdam, we're going to live life to its fullest, and with **life care** we can. **Life care** gives us guaranteed access to a full continuum of long-term health services in a gated, secure community by people we know and trust. Our retirement plan is now in place.

Call **(800) 365-0665** today to find out about **life care** living at The Amsterdam at Harborside.
